

Project Overview

Monday, June 22, 2026 8:20 PM

Use Case:

- 1- **Purpose:** Compile a hplc file and get a bytecode file
- 2- Handle macros
- 3- Handle struct types
- 4- Optimize const values

```
Class Variable{
    String name;
    Type type;
    variant value;
};
```

```
Class operand{
    Left_value; -> 10
    Operand; -> ==
    Right_value; -> 20
};
```

```
Int a = 10
Int b = 20
If(a == b)
```

```
-----
If(10 == 20)
{
}
```

```
-----
If(false)
{
}
```
